

## Membership Report 2021

We have only had one plot change hands this year. Plot 15S, when Tim and James gave up their tenancy to concentrate on their new garden. This enabled us to offer a plot to Miguel and Rachael Battais from Streatley. Please introduce yourselves and make them feel welcome when we are all back working on our plots this spring.

Our Waiting List has been steadily building over the last few years and now stands at sixteen. Your committee has approached both Parish Councils to let them know that the list is at an unprecedented high and to ask if more land might be available for allotments. I have to say their response was not too hopeful.

In view of the Waiting List please ,if you find you no longer need a plot or are not able to work your plot, do consider giving up your tenancy to allow others, who are waiting, to have the opportunity and enjoyment of an Allotment Plot.

### Social Secretary Report

Sadly, due to the Covid safety restrictions we have not been able to gather for any events this past year. Therefore the Allotments Society's intention to be 'open' as part of the Goring and Streatley Open Gardens last summer was cancelled. This also meant that the Allotment Supper, which many of us have enjoy in past years could not take place either.

We are hopeful that it will be possible to have a meal together later this year, even it this means picnicking outside. Meanwhile we can be ' social' within the social distancing rules when we see each other at the allotments, especially now the weather is improving.
